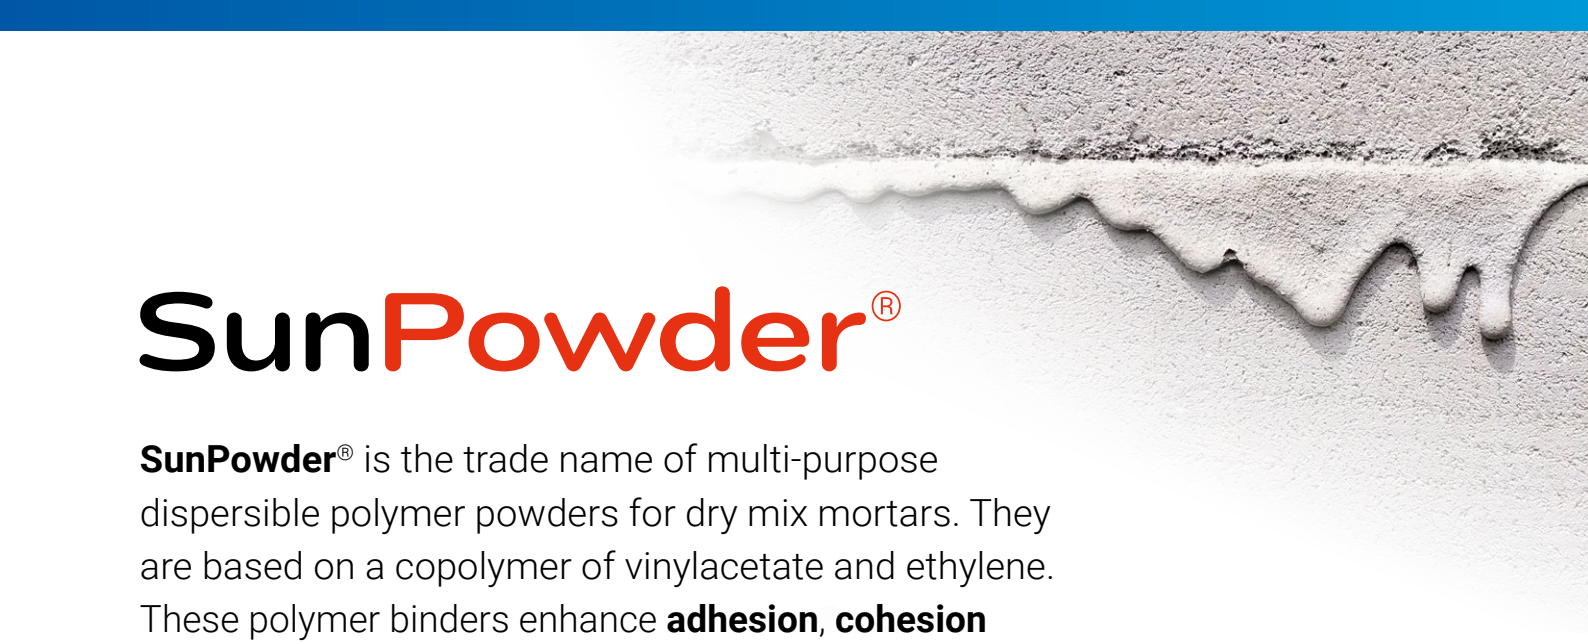
SunPowder®

Redispersible powders

06 | 2026



SunPowder®

SunPowder® is the trade name of multi-purpose dispersible polymer powders for dry mix mortars. They are based on a copolymer of vinylacetate and ethylene. These polymer binders enhance **adhesion**, **cohesion** and **flexibility** of mortars.

Application		Recommended grades	Flexibility
Cement tile adhesive	Standard tile adhesive (Class C1, C2)	SunPowder CT101	Hard
		SunPowder CT103	Hard
		SunPowder CT105	Hard
		SunPowder CT107	Hard
		SunPowder CT110	Semi-flexible
	High performance tile adhesive (C2 - S1, S2)	SunPowder CT110	Semi-flexible
		SunPowder ET143	Very flexible
		SunPowder ET121	Very flexible
ETICS	Adhesive/Plaster	SunPowder ET143	Very flexible
		SunPowder ET121	Very flexible
Mortar		SunPowder CT101	Hard
		SunPowder CT103	Hard
Self leveling compound		SunPowder SL111	Semi-flexible
		SunPowder CT110	Semi-flexible
		SunPowder CT101	Hard
Joint filler		SunPowder CT110	Semi-flexible
		SunPowder WP144	Very flexible
Water proofing membrane		SunPowder WP144	Very flexible
		SunPowder WP131	Very flexible
		SunPowder WP134	Very flexible
Tile grout		SunPowder WP131	Very flexible
		SunPowder WP134	Very flexible
Plaster and putty		SunPowder CT110	Semi-flexible
		SunPowder ET121	Very flexible
